## EDUCATION

---

**UBDT College of Engineering Davanagere**, B.E in Computer Science 2019 – May 2023

- GPA: 7.5
- **Stream:** Computer Science and Engineering

**Jain P U College Moodbidri** 2017 – 2019

- GPA / %: 77.33

**Sri M D R S School Ittigi** 2017

- GPA / %: 94.24

## PROFESSIONAL SUMMARY

---

As a motivated and detail-oriented fresher Python developer, I bring a solid foundation in Python programming and a keen interest in developing robust and scalable applications. My academic background in Computer Science, combined with hands-on experience in Python frameworks and libraries, positions me well to contribute effectively to a dynamic development team.

## SKILLS

### Python

- 
- |           |                  |
|-----------|------------------|
| • Python  | • SQL            |
| • Flask   | • Git            |
| • Tkinter | • HTML5 and CSS3 |
|           | • JavaScript     |

## SKILLS SUMMARY

---

**Python:** Proficient in Python, basic syntax, and essential libraries.

**Flask:** Proficient in the Flask, and building robust, scalable, and maintainable enterprise applications using Flask.

**SQL:** Proficient in SQL, with a strong understanding of querying, manipulating, and managing data.

## PROJECTS

---

**Unified Game-Zone**

- Unified Game Zone is a Python-based application with a Tkinter user interface, offering a variety of mini-games designed to improve cognitive abilities and IQ.
- The platform includes classic and engaging games such as Tic Tac Toe, Dots and Joins, and a Quiz game, with additional games that test logical reasoning, memory, and problem-solving skills.
- Unified Game Zone aims to provide an entertaining yet mentally stimulating experience for users of all ages, promoting brain activity and cognitive growth.

**Tools Used:** Python3, Tkinter

## Smart Education

Smart Education is an interactive and modern learning platform designed to facilitate student assessments and progress tracking.

- Developed using Flask and Angular, this application provides a seamless experience for both teachers and students.
- Teachers can add and manage student profiles, assign quizzes based on subject material, and maintain comprehensive progress reports for each student.
- Students can participate in quizzes that reinforce their learning in various subjects, helping them gauge their understanding and retention.
- Smart Education promotes an organized and efficient approach to education, allowing teachers to monitor and support student performance effectively.

**Tools Used:** Python, Jwt, Angular
